### Physicals

It is never too early to get your child's **physical** out of the way before the new school year begins! We have appointments for school and sports physicals available right now, before the last-minute rush in the tail end of August. We offer convenient after-work hours to better fit your schedule.

### We are proud to welcome 4 new staff members!

Premier Pediatrics has been busy growing and meeting new patients every day thanks to some great physicians and wonderful support staff. To keep up, Premier has hired several new faces that you may see when you come to the practice. The new staff all specialize in working with children and are invested in making your child's experience the best it can be when you visit! Join our Premier family now!

#### Holly

We are excited that Holly has recently joined our team! Holly's cheerful and charismatic personality has definitely been a wonderful addition to the office. Holly has been a medical assistant for the past eight years and has worked in several pediatric and family practices. When not working, Holly is busy with her infant son, spending time with friends or styling hair.

#### Lauren E.

After taking some time off from work to be a full-time mother, Lauren decided to return to the world of pediatrics in the Spring of 2011. Lauren is a medical assistant who has several years experience working in both pediatrics and ophthalmology. In her spare time, Lauren enjoys spending time at the park and zoo with her young daughter.

#### Lauren M.

Lauren has journeyed over 350 miles to join our office in Newark, Delaware! Originally working as a Registered Nurse in Boston, Massachusetts, Lauren moved to Delaware to join our team in the Spring of 2011. She is a graduate student at the University of Delaware and will soon become a Pediatric Clinical Nurse Specialist. When not working or studying, she enjoys running or heading to the beach.

#### Mary

Don't be tricked by Mary's young appearance! She's an experienced pediatric medical assistant. Mary is the proud mother of a 3-year old boy. She has also been working in pediatrics for over three years. When not working, Mary is busy spending time with her family and friends and being a full-time mother!

Sincerely,

**Premier Pediatrics**
