How to Find Us

We are located in the Glasgow Medical Building behind Peoples Plaza, across the street from Hodgson Vocational-Technical School. Our office is on the second floor inside Entrance 6.

Visit our website
www.Premier4Kids.com
for more information
including other online
resources.

Flu season is coming!

Protect your child against the influenza virus. The Centers for Disease Control and Prevention [CDC] recommends that everyone 6 months of age and older get their yearly flu vaccine.

Premier offers flu shots for all patients. We have preservative-free shots as well as spray vaccinations. The height of flu season is from October to May.

For flu information for parents, please visit <http://www.cdc.gov/flu/parents/>

To hear a podcast about the dangers of the influenza virus and the benefits of being vaccinated, please visit <http://www2c.cdc.gov/podcasts/player.asp?f=3266054>

September is Children's Safety Month!

Adults and children alike **must always wear safety helmets** while cycling! It is the most important thing that will keep you and your kids safe during your late summer bike rides.

Be sure your child knows which side of the road to ride on (she should travel with the flow of traffic) and that she has practiced her hand turn signals:

Right turns: left arm bent upwards **Left turns:** left arm straight out

Never take a passenger on your bike! Remember: you are the best example for safety. By protecting yourself, you're protecting your kids.

Sincerely,

Premier Pediatrics
