Stay Safe this Halloween!

We all know the competition to have the heaviest pillowcase every year can get pretty fierce. Keep your little trick-or-treaters safe so they can get the most out of this much-loved holiday!

Make sure **everyone is visible**. Everyone should carry a flashlight. You can also affix reflective tape to clothing and costumes. Always look both ways before crossing the street and walk on sidewalks when you can.

Always **stay in a group**. Don't split up or let someone strike out on their own. Always keep the group with a trusted adult.

Exercise **caution with the candy**. Examine candy for any rips or tears and get rid of anything you don't trust. Try to discourage overeating.

October is Fire Safety Month!

We're all going to be spending a lot more time inside in the coming months. Now is a great time to talk to your family about **fire safety**. Make sure that your child knows the plan of escape and the 'meeting spot' in the event of a fire. Don't leave your stove unattended or keep flammable objects, even potholders, near a lit stove. Check fire alarms to ensure they have working batteries and install smoke alarms on every floor of your home, especially near the bedrooms.
